

DITCHING & SEA SURVIVAL SEMINAR

Wednesday 23rd March 2016

**At the Lifeboat College, Poole, Dorset
(Courtesy of Royal National Lifeboat Institution)**

Due to popular demand GASCo & the Lifeboat College are holding another 'Ditching & Sea Survival' Seminar. The morning will include sessions on preparing for over-water flight, demonstration of GA life-saving equipment, sea survival and rescue considerations together with a briefing on the practical sessions in the afternoon followed by lunch in the Harbour Suite of the RNLI College.

The Lifeboat College has a sea survival pool and the practical sessions held in the afternoon will include wave and wind effects as well as a simulated lifeboat rescue. All equipment is provided but if delegates wish to use their own lifejackets, dinghies and survival suits they are encouraged to do so.

Prepare yourself for over-water flights this summer by signing up early for this Seminar which is expected to be over-subscribed.

Booking Price of £175 inclusive of lunch and refreshments
